PRESENTATION OF NATUREX spol. s r.o* KOMÁRNO

Since its establishment in 1996, Naturex spol. s r.o. has been engaged in the business of sterilized vegetable production. We serve domestic and foreign market. About 60 per cent of our production is exported to the neighbouring countries.

Our company is exclusively engaged in the production and sale of sterilized vegetable in a large, the so-called Gastro package.

Our products are produced in 4-litre glass jars but the fundamental part of production consists in the production into special multilayer sterilization pouches.

The pouches are available in two sizes, with a drained weight of 4 -5 kg, and smaller, with a drained weight of 1,2 – 1,8 kg, so-called self-standing.

Our production is seasonal as it depends on the delivery of agricultural products. The season usually lasts from the end of June to the end of a calendar year. Among our products produced out of season are cabbage products, various mixtures and salads as well as sterilized select corn and peas in brine made out of frozen vegetable.

Among the most significant products are sterilized cucumber of various sizes (5-8cm, 6-9cm, 9-12cm), sliced or quartered red pepper, round hot peppers, pepperoni, chopped white and red cabbage, carrot, celery, beetroot, various vegetable mixtures and stewed vegetable salad.

Out of fruit, only apples for peeled apple-halves compote are processed.

In 2002, 2003 and 2004 we gained the award of “The best exporter of the year” in the category of small companies.

The quality of our products is acknowledged by the ISO 22000:2005 certificate in the area of food safety management (production of sterilized vegetable and fruit).

The company is managed by a team of experienced employees. The owner – director has more than 30-year experience and the other managing employees more than 20-year experience in the canned food production.

*Translator’s note:

Spol. s r.o. = limited liability company

Sterilized cucumber 7-9cm

- *sterilized vegetable*
- *multilayer sterilization bags*
- *best before: 2 years*
- *4,5 kg drained weight*
- *7,7 kg net weight*

Sterilized cucumber 9-12cm

- *sterilized vegetable*
- *multilayer sterilization bags*
- *best before: 2 years*
- *4,5 kg drained weight*
- *7,7 kg net weight*

Sterilized cucumber cubes – 8x8x8mm

- *sterilized vegetable*
- *multilayer sterilization bags*
- *best before: 2 years*
- *5,0 kg drained weight*
- *7,4 kg net weight*

Sterilized pepper - sliced

- *sterilized vegetable*
- *multilayer sterilization bags*
- *best before: 2 years*
- *4,0 kg drained weight*
